

The growth story of Globachem started in 2000 in Sint-Truiden as a dynamic family business. Our focus? Innovation and internationalization! Young, generic resources, new applications and formulas ... We have been focusing on this for almost 20 years. With success, because we can call ourselves an important European player with a turnover of more than € 150 million. Globachem helps farmers and horticulturists protect their crops through an extensive range of generic and internally developed plant protection products. This way we contribute to safe food production for the growing world population with the lowest possible ecological footprint. We therefore have an excellent reputation with both our customers and our employees. To continue building the Globachem future, we are now looking for a:

## Biological Assessment Officer

### *Regulatory affairs Crop protection*

#### A challenging job content

- You are part of the Product Development department that is in charge of developing new crop protection products. These products can only enter the market after approval of the registration dossier by the concerned authorities. These dossiers contain a chapter on the efficacy, also called the 'Biological Assessment Dossier (BAD)'. Based on the results from field trials with our products in various countries, the product claims and use patterns are underpinned in a solid way.
- You are in charge of analyzing and assessing the trials and to summarize the results in order to underpin the claims on the product label. You are able to evaluate these summaries to identify possible data gaps that need to be resolved within the BAD. You assist the process of outsourcing field trials to various countries and you help answering questions from authorities arising from their evaluation of the dossier.
- You work closely with your colleagues of Product Development and registrations. You report to the head of Product Development. You are willing to help colleagues with other tasks in order to meet a certain deadline.

#### Accurate, analytical and well organized?

- You hold a Master's degree in bio-engineer or equivalent.
- You are passionate about the plant and agricultural world and have a good understanding of agriculture and crop protection.
- You enjoy using your analytical, scientific mind in researching legislation, markets and studies and making applications with added value.
- You work methodically and accurately, you have project management qualities. You are a team player and dare to take initiative.
- You are strong in multitasking, organizing and planning so that you can meet strict deadlines. Dealing with stress situations, such as unexpectedly short deadlines, is no problem for you.
- Your written and spoken English is excellent. Knowledge of other languages is a plus.
- You have a good knowledge of Microsoft Word and Excel. Knowledge of ARM software is a plus.
- You can connect with our Family values: Fun, Respect, Ambition, teamwork, Innovation, flexibility, family.

#### A company with a great future

Globachem offers you an interesting job with real responsibilities in a growing and financially healthy family business with a great future ahead. You can grow along with the organization, build further expertise and shape your career yourself. The necessary training and introduction are provided. You are part of a young and enthusiastic team. You can count on an attractive remuneration package which contains an interesting set of fringe benefits (meal vouchers hospitalization/ group insurance, flexible income-plan, ...).
